## Spring, 1902.

N presenting our trade list for the Spring of 1902, we wish to thank all our patrons for past favors, and we hope, by honorable dealing, to merit a continuance of their esteemed orders. The stock offered herein is all young and thrifty and graded to the highest standard. Our stock of Apple, Pear, Plum, Cherry, Peach, etc., is particularly fine; an unusually well-grown lot of small fruits in all lines. In Ornamental Trees, Evergreens, Shrubs, Roses, Herbaceous Plants and Greenhouse stock we have a large assortment of carefully grown stock.

All orders received by us have our personal and prompt attention, and we guarantee reasonable satisfaction in every case, as thousands of unsolicited testimonials now on file fully attest.

With our large storage cellars and packing houses, and system of water-works, distributing water to all parts of our packing grounds, we feel that our facilities for the careful and proper handling of nursery stock are very complete.

Notwithstanding our nurseries have been properly inspected by the State Entomologist, as will be seen by his certificate on last page of this catalogue, yet on account of the great prevalence of inspect pests throughout the country, a sure remedy for which is Hydrocyanic Acid Gas, and having provided ourselves with buildings for this purpose, all our stock will be fumigated before shipment, and thus secure our customers against all danger on this point.

Our shipping facilities are unexcelled. Bloomington being an important railroad center, we are able to forward promptly to all sections. With the Illinois Central R. R., Chicago & Alton R. R., Lake Erie & Western R. R., and the C., C., C. & St. L. R. (Big Four), and their branches, we have direct communication with Chicago, St. Louis, Cincinnati, Kansas City, Indianapolis, Dubuque, Cairo and LaFayette by daily freight trains without transfer. On account of our unusual facilities we are also enabled to obtain very low freight rates to all points. We ship with flattering results to Australia, Mexico, New Zealand, Nova Scotia, Oregon, Washington, California, Maine, and all the other states in the Union.

We exercise the greatest care to have all articles true to name.

PHOENIX NURSERY COMPANY.

#### TERMS AND CONDITIONS.

Terms of Payment—Cash, satisfactory security, or references before shipment of stock. All orders to be sent by express, "C. O. D." must be accompanied by ONE-FOURTH THE AMOUNT IN CASH.

Remit by Postal or Express Money Orders, Bank Drafts on New York, Chicago or St. Louis, payable to order of PHOENIX NURSERY COMPANY, or currency by express prepaid.

Orders and Conditions of Sale—Please order EARLY, with order legible and separate from body of letter, with name of Postoffice, County and State, and how you wish packages directed on the ORDER.

Long specified lists are subject to special prices. Needed specifications as to age, size, style, etc., state on the order to save the trouble of referring to previous correspondence. on the order, to save the trouble of referring to previous correspondence.

Particular varieties named in order furnished as far as practicable. Orders forbidding substitution

we fill so far only as we can supply the sorts specified.

Prices-All articles listed in this catalogue will be furnished to the trade at prices quoted, regardless of quantity ordered; except where items are quoted by the 1,000, not less than 500 will be furnished at 1,000 rates.

-Prices do not include packing. Packing carefully done in boxes mostly, sometimes in bales Packingracking—Frices do not include packing. Facking carefully done in boxes mostly, sometimes in bales or parcels, for which we charge moderately; for large boxes, 8 or 9 feet by 2½, three of which usually hold 1.0005 to 6-feet apple—\$2.50 each, and in proportion for larger or smaller boxes. NO CHARGE FOR DELIVERING AT RAILROAD, EXPRESS, OR POSTOFFICE, HERE. On lots by mail, postage and packing extra. Trees per carload, when loaded in bulk in box cars, no additional charge for loading and packing in car. When flat cars are used and boarded up, we charge for additional labor, lumber and material used.

Shipping—We usually commence shipping in the Spring about March 10.

We prefer parties ordering should indicate the route by which they wish stock sent. In absence of particular directions, we forward to the best of our judgment; but in no case do we assume any responsibility after consignment to purchaser, unless for our own mistakes. When losses occur by detention en route, claims should be made on the carriers immediately.

It is our custom when sufficient time is given to obtain through Excipt on Particular Control of the carriers immediately.

It is our custom, when sufficient time is given, to obtain through Freight or Express Rates on all

Shipments.

To our customers at a distance we would state that the postal rate on Trees and Plants has been reduced from 16 cents to 8 cents per pound, and can be shipped in any number of four-pound packages to one address. We ship a great many root grafts, seedlings, cions, greenhouse plants, etc., in this way.

Direct all letters to PHOENIX NURSERY COMPANY, P. O. BOX 625, BLOOMINGTON, ILLINOIS. SPRING, 1902.

Ship the following trees and plants to

#### The Following are Our Leading Sorts of Standard Pears:

BARTLETT, BELLE LUCRATIVE, BESSEMIANKI, BEURRE BOSC, BEURRE CLAIRGEAU, BEURRE EASTER, BEURRE D'ANJOU, BUFFUM, CLAPP'S FAVORITE, DOYENNE BOUSSOCK, DUCHESS D'ANGOULEME, DOYENNE DE ETE, EARLY HARVEST, FREDERICK CLAPP, FLEMISH BEAUTY, GARBER'S HYBRID, GOODALE, HOWELL, KOONCE, LOUISE BONNE D'JERSEY, LAWRENCE, LAWSON, LE CONTE, MT. VERNON, ONONDAGA, OSBAND'S SUMMER, PETITE MARGUERITE, PRESIDENT DROUARD, SHELDON, SECKEL, TYSON, VERMONT BEAUTY, VICAR OF WINKFIELD, WASHINGTON EARLY, WILDER'S EARLY, etc.

#### The Following are Our Leading Sorts of Dwarf Pears:

BARTLETT, BEURRE D'ANJOU, BUFFUM, CLAPP'S FAVORITE, DUCHESS D'ANGOULEME, EARLY HARVEST, HOWELL, IDAHO, KEIFFER'S HYBRID, KOONCE, LAWRENCE, LOUISE BONNE D'JERSEY, MT. VERNON, SECKEL, TYSON, VICAR OF WINKFIELD, WILDER'S EARLY, etc.

#### ROSSNEY PEAR.

The best and handsomest pear yet produced. Hardy and productive. Ripens two weeks after Bartlett. Strong grower. Luther Burbank, the most noted horticulturist of the age, says under date of October 5, 1895: "The samples of Rossney Pear arrived in due season. The large size, handsome form, and creamy yellow skin with crimson blush gives the fruit a tempting appearance; and the tender, creamy flesh, of just the right texture, with no hard spots and an unusually small core, with its superior flavor, makes it about the best pear so far seen. If the tree is vigorous, healthy and productive, would prefer it to any other, even the standards, Bartlett or Seckel." See price above.

#### LONGWORTH'S No. 1 PEAR.

#### The Pear for the Northwest.

This is a very hardy Seedling Pear of recent introduction; originated at Dubuque, Iowa, and was grown from seed some forty years since by the veteran nurseryman and horticulturist, Wm. Longworth. The tree is a strong, upright grower, entirely FREE FROM BLIGHT, and an enormous bearer. Fruit, medium to large, nearly round; skin yellow with warm blush on the sunny side; flesh rather coarse, juicy, sugary, good flavor. Ripens from first to middle of September.

Having thoroughly tested this variety, we have no hesitancy in recommending it to the public for general planting. This pear has withstood our severest winters without the slightest injury, while other varieties were frozen to the ground. Being free from blight and EXTREMELY HARDY, it is a very desirable variety and should be planted largely. See price page 3

varieties were frozen to the ground. Being free from blight and EXTREMELY HARDY, it is a very de-
sirable variety, and should be planted largely. See price, page 3.

Empire State—White, 2 years Eaton—A large, showy black grape; ripens before Concord, 2 years	8.00	• • • • •
	4.00	
	8.00	
HERCULES—This new black grape which originated in this county was first offered by us.		
The vine is a strong, healthy grower, hardy and productive; bunch large, long and		
broad; berries unusally large and round; a shade darker than Worden and covered		
with a blue bloom; ripens with Concord. The fruit of this variety was exhibited at		
the World's Fair, 1893, by the New York Experimental Station, where it created a		
great deal of interest. 2 years	25.00	• • • • •
ILLINOIS EARLY—A new grape which originated with the late G. A. Ensenberger, of this city,		
some ten years ago. The vine is very hardy, strong grower. Fruit large, purplish black, ripens with Moore's Early. Berry adheres well to the stem, and we believe		
will make an excellent shipping variety. 2 years		
Isabella—2 years		• • • • •
Ives' Seedling—Early, 2 years		
Janesville—Very early, hardy, productive, 2 years	8.00	
Jefferson-2 years, new, red, very productive, hardy and vigorous		
Lindley—(Rogers No. 9) Very large, one of Roger's best, lighter in color than Agawam; 2 years		
McPIKE—We have in this new wonderful black grape, great size, superior quality, hardy wood		
and bud, very large leathery leaves. Fruit ripens same season as Worden. This		
new grape ripens evenly and has only one and two seeds. Skin tender and pulp melting. 2 years		
" 1 year		
Martha—White Concord, 2 years		
Merrimac-(Rogers No. 19) One of Rogers' best black grapes; 2 years.		
Moore's Early-Bunch large, berry round, black, very early, ripens 10 days before Hartford		
Prolific, 2 years	5.00	40.00
Moore's Diamond—2 years, white, well known	4.00	• • • • •
Moyer—A red grape from Canada; resembles the Delaware, but better and earlier; said to be		
three weeks earlier than Concord, very hardy; 2 years	5.00 5.00	40.00
Norton's Virginia—Arbor and wine grape, 2 years	8.00	40.00
Noah—2 years, white	8.00	
Perkins—White or bronze, 2 years	8.00	
Pocklington—Golden, very prolific; bunch very large; an excellent market variety; 2 years	5.00	40.00
Prentiss—White, 2 years	8.00	
Salem-(Rogers No. 53) Berry large, round, coppery red; bunch large and compact; one of		
the very best; hardy and productive; 2 years	4.00	• • • • •
Wilder—(Rogers No. 4) Black, an excellent market variety on account of its large size and	5.00	
beauty; ripens with Concord; hardy and productive; 2 years	6.00	
Worden—Better than Concord; 2 years	5.00	40.00
Wyoming Red—Best early red, double size of Delaware, ripens a week to 10 days in advance		
of Concord; 2 years	5.00	
Woodruff Red-Strong and vigorous grower, very large and handsome, hardy; 2 years	8.00	• • • • •

#### ROOT GRAFTS—[Order Early.]

Largest Stock and Assortment.

#### Our Season for Making Root Grafts Closes March 15.

Root Grafts are Cions and Roots grafted and tied together, ready for planting in nursery rows. Orders for special lists of sorts PLEASE SEND EARLY, with one-fourth cash with order, balance before shipment. This is very important to secure best grafts and your selection of sorts, as we take special pains in cutting and putting up cions for early orders. Please don't forget this. No extra charge for packing. Even 50's or 100's of each sort will be put up at the following prices. For smaller or broken lists, prices will be given on application.

# GREENHOUSE AND BEDDING PLANTS.

#### ROSES, HARDY AND TENDER BULBS, ETC.

Thirty Thousand Square Feet Under Glass for plants and propagating purposes give us unusual facilities; so we can truly say our plants are in most splendid health and vigor, of the best size and shape for packing, and put up in the most approved manner for safe transit. They are usually sent by express, for which there are excellent facilities at this point.

Purchaser's selections gladly allowed, as far as practicable, without extra charge.

#### 50 AT 100 RATES. NOT LESS THAN 5 OF A VARIETY.

**OUR ROSES** are all of our own growing on their own roots either from cuttings or layers. We cannot afford to fill orders for less than \$1.00 at the prices named herein.

#### HARDY HERBACEOUS FLOWERING PLANTS.

The following assortment embraces the most desirable kinds and varieties, and in great demand for permanent planting. They are all showy, beautiful plants, of easy cultivation, and flower at different periods so that a succession of bloom will be obtained, from early in summer until after frosts in the fall. They do not have to be taken up in the fall, or replaced every spring, but remain in the ground for years. To obtain the best results they should be cultivated the same as other plants.

#### HARDY HERBACEOUS FLOWERING PLANTS—Continued.

Anemone Whirlwind-A new, semi-double form of Anemone Japonica Alba, which is sup-		
	10	100
posed to be a cross between this beautiful variety and a Japonica Rosea. In general		
style and habit it is identical with the white Anemone. It is of the same strong habit		
of growth, and is even more free-flowering than the original type. The flowers,		
which are 2½ to 3 inches across, have several rows of pure white sepals, and the		
advantage of lasting much longer than the single varieties		<b>9</b> 9 <b>0</b> 0

HARDY HERBACEOUS FLOWERING PLANTS—Continued	• 10	10
Tionarda—DIDYMA. Oswego Tea. Showy heads of brilliant scarlet flowers throughout the	10	1(
summer		(
Pæonies—See below. Pardanthus—CHINENSIS. (Blackberry Lily.) Easily grown in ordinary garden soil, 4		
feet, June to September. Showy orange-red flowers, spotted with purplish		
brown spots		
Pyrethrum Uliginosum—This is considered by many the finest autumn flowering plant we		
have, growing 4 feet high, and covered with a profusion of large white		
flowers. Resembles the Paris Daisy in form of flowers. Very useful for		
fall cutting; August to frost		
Phlox—HARDY PERENNIAL. The improvement made in this beautiful class of plants the past few years is perhaps more marked than in any other section of		
the Hardy Herbaceous family. Instead of the small flowers produced by the		
older varieties, which were almost limited in color to lilac and white, we now		
have gorgeous flowers combining all the various tints of rose, carmine, red,		
purple, white and salmon, with their distinct eyes. They require no care but		
dividing and resetting every second year. Their vigorous growth and freedom		
of bloom make them very useful plants. Perfectly hardy everywhere. We		
have the following named varieties: AUGUSTA RIVERIE, salmon red, very		
large; ATHIS, light salmon rose; AMPHIO, large rosy salmon; AMOR, very		
free flowering: large, compact heads of pure pink, center flesh pink. Dwarf		
grower; ALCESTE, very beautiful large flowers; white shaded with lilac, large, blush-violet center; very striking; BOULE DE FEW, dwarf grower,		
very large flowers of a bright rosy-crimson. Extra fine; BERANGER, large,		
perfect flowers of soft, rosy white, shaded to light gray. Of grand form and		
substance. Very free blooming; CROSS OF HONNEUR, deep rose and white		
striped; CONSUL M. FIRST, red, white eye; COQUELICOT, extra fine, large		
flowers, compact heads; color bright red, making a brilliant show; CAMERON,		
large, perfect flowers, flesh pink with crimson center; extra good; ELNA, red		
shaded salmon; ESCLARMONDE, very large flowers of a rosy lilac, shaded		
white, large purple center, surmounted by a white halo; extra good; ECLAI-		
VEUR, extra fine deep purplish crimson; FIREFLY, very bright crimson; FLEUR DE NIEGE, white shaded lilac; GLORY ST. MARC, rosy lilac; HOFF.		
GARTNER M. DECKER, deep rose; ISABELLA DUPUY, white, large white		
eye; JEANNE DE ARC, dwarf white; JAPONICA, red shaded lilac; JAS.		
MAGNUS, lilac rose; LUMINEUX, clear bright pink, lighter center; MADA-		
GASCAR, red shaded lilac, large; MME. PAPE CARPENTER, pure white,		
finely formed flowers, of the largest size, of a dwarf, compact growth; MOL-		
IERS, salmon flushed rose; PANTHEON, large, rosy salmon; PAUL & LOWE,		
pink, white eye; PERRIE LATI, deep crimson, shaded lilac; SIMPLON, red		
shaded pink; THE PEARL, fine pure white; VIRGO MARIE, white, large		
and fine; WILLIAM ROBINSON, deep rosy salmon, small crimson eye.  Named varieties, strong, 2 years, from open ground		1
Mixed " 2 years, " "		J
Plants from 2 inch pots		
Rudbeckia Double, "GOLDEN GLOW." A glorious new plant and one that will find a place		
in every garden here and abroad; of fine habit, vigorous growth, with early,		
continuous and immense blooming qualities; it will be found excellent also for		
cut flower purposes, inasmuch as the stems are long, and often carry a		
dozen flowers furnished with most beautiful foliage. A large vase filled with		
these flowers is a beautiful sight. Clumps	• • • • •	
Sanguinaria—CANADENSIS; Bloodroot, pure white flower, valuable for planting in shaded or damp spots		
Vinca—MINOR; Common Periwinkle or Myrtle, well known		
Violets—Hardy, Russian, double, large blue		1
Veronica—Amethystica, lavender blue, Augustifolia, white. Very desirable border plants		•
Yucca Filamentosa—SPANISH BAYONET; 4 feet; June and July. Foliage evergreen and	* *	
somewhat resembling the Century plant in habit of growth. The flower spikes		
are many branched and the flowers are borne in huge panicles above the		
sword shaped foliage. Large, white, waxy blooms. 5 year roots		

#### HERBACEOUS PAEONIES.

We have an unusually fine stock of the following named varieties: Price, strong roots, 2 and 3 eyes, per 100, \$15.00. ALBA PICTA, white, tinged with yellow; BI-COLOR ROSEA, rose; CHARLES BINDER, deep rosy lilac; COMPTE DE PARIS, purplish rose; COMPTE DE NANTEUIL, delicate pink;

DONNELAN'S SEEDLING, double purplish rose; DELICATISSIMA, deep rose, very large and fine; DUCHESS DE NEMOURS, deep pink, violet shade; ETIENNE DENIS, rosy purple; ELEGANTISSIMA, blush with salmon shade; ELEGANS, lilac with blush; EDULIS SUPERBA, violet rose; FESTIVA MAXIMA, white, marked with carmine; GLOBOSA, rose and blush; GRANDIFLORA ROSEA, delicate blush, yellow center; GRANDIFLORA CARNEA, rose center, straw color; HUMEII, dark rose, large, very double; JOAN OF ARC, white tipped with carmine; LA COQUETTE, deep rose, tipped with salmon; PLENISSIMA VARIEGATA, deep rose; POMPONIA, purplish pink, center salmon; PAPAVERACEA, blush center, straw color; ROSEA PALLADA, rose; ROSEA ODORATA, deep rose, large and fragrant; SOEUR ROSALIE, deep rose, center white; STRIATA ELEGANS, pale rose, center crimson; VERSICOLOR SEMI-PLENO, deep rose; VICTORIA MODESTA, deep rose and pink; VICTORIA BI-COLOR, creamy white, pink center; ZOE VERNIORY, large, white, center yellow.

We also have a choice lot of paeonies, colors separate, red, white and pink. Price, strong roots,

2 and 3 eyes, per 100, \$10.00.

TENDER BULBS AND TUBERS.	10	100
Amaryllis-EQUESTRE, pink, from 4-inch pots.		\$8.00
" FORMOSISSIMA velvety crimson, from 3-inch pots		8.00

## NEW GERANIUM-E. H. Trego.

This is the best scarlet geranium yet produced. It was grown by careful hybridization from seed of Mrs. E. G. Hill, crossed by P. Crozy, by the noted florist, A. Shriver. We have tested this variety for the past four years and can truly say it is the largest flower and brightest scarlet geranium we have yet seen, and that it cannot be excelled for bedding purposes. The color is a deep scarlet of exquisite shade; the florets are regular in form, more than semi-double, and about two and a half inches in diameter. Trusses, enormously large on long stems. Foliage and habit are all that could be desired. It has also proved to be an excellent winter bloomer. We are the first to offer this magnificent sort to the public, and do so with the fullest confidence that every customer will be more than pleased. Price, from  $2\frac{1}{4}$ -inch pots, \$1.25 per 10; \$10.00 per 100. From 4-inch pots \$1.75 per 10.

#### GREENHOUSE AND BEDDING PLANTS.

Prices, except as noted, are for first-class plants of shipping sizes.	10	100
Abutilons—6 sorts from 2½-inch pots	\$ .40	
"SOUV. DE BONN—Variegated. From 2½-inch pots	.40	• • • • •
Acalypha—SANDERII—New. The Chenille plant. From 4-inch pots	2.50	
" MARGINATA. Foliage large, reddish brown, margin bright carmine. From		
2½-inch pots	.50	
Auracaria—EXCELSA. From 6-inch pots, 4 to 5 tiers, 16 to 20 inches high	20.00	
Ageratum-IMPERIAL. A splendid strong growing bedding variety. Color, dark blue.		
Height 1½ to 2 feet. From 2½-inch pots		<b>\$</b> 3.0
" PRINCESS PAULINE. A most distinct and novel variety of dwarf; compact		
habit, rarely exceeding five inches in height, its peculiarity being that both col-		
ors, blue and white, are combined in the same flower; the body of the flower		
being white, while the stamens are of a light sky blue, giving the flower a pretty		
variegated appearance; one of the most distinct new bedding plants that has		
come under our observation this season. From 24 inch pots		3.0
" STELLA GURNEY. This new Ageratum is a very short, compact grower, well		
branched. An extremely free bloomer. The individual tufts are very large		
and dense. The color is intense blue, the most beautiful ever seen in Ageratum.		
Continuous bloomer; unequalled as a bedding plant. From $2\frac{1}{2}$ -inch pots		3.0

#### OFFICE OF THE ILLINOIS STATE ENTOMOLOGIST.

Urbana, Ill., July 9, 1901.

This is to certify that the growing nursery stock and the premises of the Phoenix Nursery Company, situated at Bloomington, Ill., have been inspected according to the provisions of an Act to prevent the introduction and spread in Illinois of the San Jose Scale and other dangerous insects and contagious diseases of fruits, approved and in force April 11, 1899, and that no indications have been found of the presence of the San Jose Scale or other dangerous insect or plant disease. This certificate is invalid after June 1, 1902.
